Environmental Policy Statement

Our Environmental Plan is a continued commitment to manage and operate our workplaces in an effective way to create a positive and lasting environmental legacy, complying with all relevant legal and other requirements, we work to our own high standards, standards inherited and passed down by our Directors 40 years experience which helps us meet our customer's contractual requirements and achieve continual improvement.

We are dedicated to developing new sustainable ideas and using and supplying sustainable materials. By working with our suppliers and clients to identify, deliver and exceed our customers requirements. We are committed to delivering a service that responds to the needs and aspirations of all our customers and a sustainable society. We expect the same standards of excellence from our supply chain and use only products provided by selected, approved or certified suppliers who have passed our rigorous tests. We are committed to creating a safe and engaging environment, making a difference to the workplaces that we work in.

We are passionate about ensuring we promote healthier lifestyles for all of our staff and workplaces that we work within by promoting community investment, healthy lifestyle campaigns, Promoting local employment and diversity, Increasing number of apprenticeships across our business and Increasing new vacancies for jobs advertised through local networks. We are committed to limiting our carbon and water footprint, and partnering with our supply chain to deliver sustainable solutions.

This policy and the associated business procedures are to be reviewed annually and revisions will be brought to the attention of all employees.
