SKILLS

I am an enthusiastic and versatile individual, who has a wealth of experience gained in the construction/railway health and safety field, encompassing all aspects of site and office-based positions. Teamwork is one of my strengths willing to either follow or give instructions. I believe in working with people in a proactive manner to resolve issues and not just point them out and walk away, we are all in this as a team and that is when we work most efficiently and safely. I am a very conscientious person who likes to go home knowing I have made a positive impact on site safety and engendered a positive safety culture in the workforce as a whole.
